Homework Information

• LATE HOMEWORK: Each homework set is worth 40 points. I will dock 5 points for each school day it is late (due by 5 PM). For example, homework turned turned in by 5 on Tuesday, when it’s due Monday, will be docked 5 points. Turn it in on Wednesday, and it’s docked 10 points. Homework turned in by 5 on Monday when it’s due Friday will be docked just 5 points.

• HOMEWORK REDOS:

Important: you may not get help from each other on redos, but you may ask me or another professor.

For each homework set, you may rewrite one of the problems of your choice that was corrected. You MUST turn in your original HW along with the rewritten one. The problem will be worth up to the number of points the problem was worth.

In other words, one of your problems, when turned in, can be treated as a “rough draft” if needed. The rewrite will be due in the class following the class the corrected homeworks were handed out. You should take care to rewrite it as concisely and neatly as possible.
